DEFINITIONS

Save as provided below, words and expressions defined in the Principal Particulars shall have the same meanings herein. In these Supplemental Scheme Particulars, the following words shall have the meanings opposite them unless the context in which they appear requires otherwise:-

| | |
|--------------------------------------|---|
| AIFM | Danske Invest Management A/S; |
| Company | Danske Invest PCC Limited; |
| Custodian | Royal Bank of Canada (Channel Islands) Limited – Guernsey Branch or such other company as may from time to time be appointed as custodian and/or depository of the assets of the Company; |
| Danish Kroner and DKK | The currency of Denmark for the time being; |
| Dealing Day | The first Business Day immediately following the relevant Valuation Day and/or such other day or days as the Directors may from time to time determine to be the day or days on which the Subscription and Redemption Prices are calculated and dealings may occur in Shares in the Fund (or any class within the Fund); |
| DKK Sub-Class | Shares in the DKK denominated Separate Fund, designated as the DKK Sub-Class, of a separate class of Shares in the Fund; |
| DKK Sub-Class Net Asset Value | The value of the relevant assets less the relevant liabilities of the DKK Sub-Class of the Fund calculated in accordance with the Articles; |
| DKK Sub-Class W | Shares in the DKK denominated Separate Fund, designated as the DKK Sub-Class W, of a separate class of Shares in the Fund. Shares in the DKK Sub-Class W are solely available to regulated Danske Bank group entities and (a) subscribing on behalf of certain of their clients in the context of a discretionary management agreement entered into with those clients or (b) subscribing on behalf of certain of their clients in the context of an agreement entered into with those clients that explicitly permits investments in these Shares; Where (i) such discretionary management agreement with an underlying client of Danske Bank group entity is terminated or (ii) a Change of Control of the Danske Bank group entity through which a client holds an interest in Shares occurs, or (iii) if the Danske Bank group entity through which a client holds an interest in Shares, transfers those Shares to an entity not within the Danske Bank group, or (iv) at the discretion of the AIFM or the Company, the Directors may either authorise Shares of such Shareholder to be exchanged for Shares of another |

| | |
|--|--|
| | class or series, or compulsorily redeem Shares of the Shareholder in accordance with the Articles; |
| DKK Sub-Class W Net Asset Value | The value of the relevant assets less the relevant liabilities of the DKK Sub-Class W of the Fund calculated in accordance with the Articles; |
| EMIR | The European Markets and Infrastructure Regulation EU No 648/2012 of the European Parliament and of the Council of 4 July 2012 on OTC derivatives, central counterparties and trade repositories including the Commission's Delegated Regulations No 148/2013 and No 153/2013 of 19 December 2012 supplementing the aforementioned regulation; |
| Euro, EUR and € | The euro unit of the European single currency; |
| EUR Sub-Class | Shares in the EUR denominated Separate Fund, designated as the EUR Sub-Class, of a separate class of Shares in the Fund; |
| EUR Sub-Class Net Asset Value | The value of the relevant assets less the relevant liabilities of the Separate Fund established for the EUR Sub-Class of the Fund calculated in accordance with the Articles; |
| EUR Sub-Class W | Shares in the EUR denominated Separate Fund, designated as the EUR Sub-Class W, of a separate class of Shares in the Fund. Shares in the EUR Sub-Class W are solely available to regulated Danske Bank group entities and (a) subscribing on behalf of certain of their clients in the context of a discretionary management agreement entered into with those clients or (b) subscribing on behalf of certain of their clients in the context of an agreement entered into with those clients that explicitly permits investments in these Shares; Where (i) such discretionary management agreement with an underlying client of Danske Bank group entity is terminated or (ii) a Change of Control of the Danske Bank group entity through which a client holds an interest in Shares occurs, or (iii) if the Danske Bank group entity through which a client holds an interest in Shares, transfers those Shares to an entity not within the Danske Bank group, or (iv) at the discretion of the AIFM or the Company, the Directors may either authorise Shares of such Shareholder to be exchanged for Shares of another class or series, or compulsorily redeem Shares of the Shareholder in accordance with the Articles; |
| EUR Sub-Class W Net Asset Value | The value of the relevant assets less the relevant liabilities of the EUR Sub-Class W of the Fund calculated in accordance with the Articles; |
| Functional Currency | The Fund's operating currency will be DKK; |

| | |
|--|--|
| Fund | The Danske Invest Hedge Fixed Income Relative Value Fund, the Cell to which these Supplemental Scheme Particulars relate; |
| Investment Manager | Danske Bank A/S; |
| Member State | A member state of the European Union, EEA countries or OECD; |
| Norwegian Kroner and NOK | The currency of Norway for the time being; |
| NOK Sub-Class W | Shares in the NOK denominated Separate Fund, designated as the NOK Sub-Class W, of a separate class of Shares in the Fund. Shares in the NOK Sub-Class W are solely available to regulated Danske Bank group entities and (a) subscribing on behalf of certain of their clients in the context of a discretionary management agreement entered into with those clients or (b) subscribing on behalf of certain of their clients in the context of an agreement entered into with those clients that explicitly permits investments in these Shares; Where (i) such discretionary management agreement with an underlying client of Danske Bank group entity is terminated or (ii) a Change of Control of the Danske Bank group entity through which a client holds an interest in Shares occurs, or (iii) if the Danske Bank group entity through which a client holds an interest in Shares, transfers those Shares to an entity not within the Danske Bank group, or (iv) at the discretion of the AIFM or the Company, the Directors may either authorise Shares of such Shareholder to be exchanged for Shares of another class or series, or compulsorily redeem Shares of the Shareholder in accordance with the Articles; |
| NOK Sub-Class W Net Asset Value | The value of the relevant assets less the relevant liabilities of the NOK Sub-Class W of the Fund calculated in accordance with the Articles; |
| Pound sterling, GBP and £ | The currency of United Kingdom for the time being; |
| Reference Benchmark | The reference benchmark for the performance fee, being the rate over the relevant bench-mark applicable to the corresponding denominated Sub-Class of the Fund which triggers the payment of a performance fee as set out in the section headed "Performance Fee"; |
| SEK Sub-Class | Shares in the SEK denominated Separate Fund, designated as the SEK Sub-Class, of a separate class of Shares in the Fund. |
| SEK Sub-Class Net Asset Value | The value of the relevant assets less the relevant liabilities of the Separate Fund established for the SEK |

| | |
|--|--|
| | Sub-Class of the Fund calculated in accordance with the Articles; |
| SEK Sub-Class W | Shares in the SEK denominated Separate Fund, designated as the SEK Sub-Class W, of a separate class of Shares in the Fund. Shares in the SEK Sub-Class W are solely available to regulated Danske Bank group entities and (a) subscribing on behalf of certain of their clients in the context of a discretionary management agreement entered into with those clients or (b) subscribing on behalf of certain of their clients in the context of an agreement entered into with those clients that explicitly permits investments in these Shares; Where (i) such discretionary management agreement with an underlying client of Danske Bank group entity is terminated or (ii) a Change of Control of the Danske Bank group entity through which a client holds an interest in Shares occurs, or (iii) if the Danske Bank group entity through which a client holds an interest in Shares, transfers those Shares to an entity not within the Danske Bank group, or (iv) at the discretion of the AIFM or the Company, the Directors may either authorise Shares of such Shareholder to be exchanged for Shares of another class or series, or compulsorily redeem Shares of the Shareholder in accordance with the Articles; |
| SEK Sub-Class W Net Asset Value | The value of the relevant assets less the relevant liabilities of the SEK Sub-Class W of the Fund calculated in accordance with the Articles; |
| Sub-Class | Means any of the DKK Sub-Class, the DKK Sub-Class W, the EUR Sub-Class, the SEK Sub-Class, the SEK Sub-Class W, the USD Sub-Class; |
| Sub-Depositary | RBC Investor Services Bank S.A. acting as sub-custodian and/or sub-depositary according to the context pursuant to the sub-depositary bank agreement between the Custodian and the Sub-Depositary; |
| Swedish Kroner and SEK | The currency of Sweden for the time being; |
| Swiss franc and CHF | The currency of Switzerland for the time being; |
| US Dollar, USD and \$ | The currency of United States for the time being; |
| USD Sub-Class | Shares in the USD denominated Separate Fund, designated as the USD Sub-Class, of a separate class of Shares in the Fund; |
| USD Sub-Class Net Asset Value | The value of the relevant assets less the relevant liabilities of the Separate Fund established for the USD Sub-Class of the Fund calculated in accordance with the Articles; |

| | |
|------------------------|--|
| Valuation Day | Every Business Day except a day on which banks in Denmark are not open for normal business and/or such other day or days as the Directors may from time to time determine to be the day or days on which a valuation of the assets of the Fund (or any class within the Fund) will be carried out; |
| Valuation Point | 4.00 p.m. (Central European Time) in the relevant market or markets on the Valuation Day immediately preceding the relevant Dealing Day; |
| VaR | Value-at-risk (VaR) is a category of risk measures that describe the statistical probability of the market risk of a trading portfolio; |
| Volatility | A measure of variations in the return over time. Normally the volatility of an asset is expressed as the standard deviation of the return on the asset. Often, volatility is used as a measure of the risk to which a portfolio is exposed. |

DANSKE INVEST HEDGE FIXED INCOME RELATIVE VALUE FUND

Introduction

The Fund is a Cell of Danske Invest PCC Limited, an open-ended protected cell investment company limited by shares which migrated from the Cayman Islands and became registered in Guernsey on 3 December 2004 and is authorised by the Guernsey Financial Services Commission as an open-ended authorised Class B collective investment scheme.

The Directors have the power from time to time to establish and maintain a Separate Fund for each class of Shares within the Fund. The Directors have by resolution resolved to establish Separate Funds, and to issue different classes of Shares for each of the DKK Sub-Class, the DKK Sub-Class W, the EUR Sub-Class, the SEK Sub-Class, the SEK Sub-Class W and the USD Sub-Class.

Investment Objective and Policy

The objective of the Fund is to generate absolute returns by investing in transferable securities, mainly in bonds, money market instruments, and other debt instruments admitted to or dealt in on a Recognised Investment Exchange and issued by companies, credit institutions, governments, municipalities, local authorities or other public organisations of a Member State, or guaranteed by a Member State or by public international bodies (Supranationals).

The strategy of the Fund is to exploit opportunities and pricing anomalies within fixed income markets, taking long and short positions via, for example, bonds and financial derivative instruments. Positions will mainly be in government bonds and mortgage bonds as well as in financial derivative instruments based on yield curves, such as swaps, futures, forwards and options and repurchase agreements.

For the purpose of hedging and/or efficient portfolio management as well as for the purpose of meeting the investment objective, the Fund may use financial derivatives including but not limited to repo and reverse transactions, swaps, futures and FX forwards.

Amongst other strategies, the Fund intends to achieve a spread of risk by seeking investment strategies such as:

- Yield Curve strategies:
 - Investing in interest curve positions such as taking a long position in ten (10) year swap while, at the same time, taking a short position in two (2) year swap;
 - Investing in interest curvature positions such as taking a long position in two (2) year and ten (10) year swaps while, at the same time, taking a short position in five (5) year swap (Barbell strategy).
- Spread strategies
 - Investing in government bonds issued by one country against government bond futures in another country;
 - Taking a long position in government bonds while, at the same time, taking a short position in a future where the underlying is a mortgage bonds, or taking a long position in a mortgage bond while, at the same time, taking a short position in a future where the underlying is a government bond;
 - Taking a long position in a mortgage bond while, at the same time, taking a short position in swap rates;
 - Investing in interest box positions such as taking a long position in ten (10) year swap while, at the same time, taking a short position in two (2) year swap in one country and doing the opposite in another country (Box strategy);
- Volatility strategy:
 - Investing in low(high) volatility positions by taking a position in a payer swaption and a receiver swaption;
- Outright long or short strategies
 - Taking a long or short position in a short term interest rate like one (1) month CITA rates, entering into an interest rate swap; and

- FX strategies
 - Taking a long position in one currency against a short position in another currency, using forward exchange transactions (FET).

The Fund plans to achieve its investment objective through active investment management; hence the Fund's investments may be concentrated, although diversified within the selected strategy or opportunity.

The Fund's investments and positions may be held in bonds and other debt instruments, financial derivatives, or a combination thereof.

The Fund may use various gearing and borrowing techniques to leverage the Fund's investment portfolio. The Fund may hedge the interest rate risk and currency at the discretion of the Investment Manager.

Investment Restrictions and Risk Limitations

The Directors of the Company have resolved that in order to achieve a spread of risk, the Fund may invest in the following classes of assets and instruments and that the following investment restrictions shall apply to the Fund:

- Bonds, bond forwards and bond futures;
- Options;
- Swaps, swaptions (options on swaps) and credit default swaps;
- Repo and reverse repo transactions;
- Forward rate agreements (FRAs) and interest rate futures;
- FX -spots, FX- forwards, FX-swaps and
- Deposits.

The risk is limited by the gearing restrictions on overall portfolio level. The gross bond exposure of the Fund will not exceed 1,600 percent of the Net Asset Value of the Fund (i.e. the maximum gearing level is 15 times). The overall exposure using the gross method is expected to be in the range of 8,000-12,000 percent and subject to the below, is not to exceed 15,000 percent. These limits also apply for the commitment method. The level of leverage may vary over time.

The maximum leverage according to the gross method can be exceeded in periods of up to five (5) months where opposite derivative positions are taken in the same instrument so that the impact of the excess is neutralized.

Leverage is calculated as the absolute value of the instruments used and it may not be representative of the level of the investment risk within the Fund. Further the risk is limited by a Value-at-Risk (VaR) restriction on overall portfolio level. The VaR of the Fund should not exceed 3 percent of the Fund's NAV where VaR is computed using historical simulation with a weekly horizon based on a 95 percent confidence interval and weekly data since December 2000.

The Fund will also adhere to the following investment restrictions:

1. Deposits with credit institutions shall be repayable on demand or have the right to be withdrawn, and maturing in no more than twelve (12) months and will be made with credit institutions having their registered office in a Member State, or, if the credit institution has its registered office in a third country, provided that it is subject to prudential rules considered by the competent authorities of the home state of the AIFM.
2. In respect of any OTC derivatives: (i) the counterparties to OTC derivative transactions will be institutions subject to prudential supervision and (ii) the OTC derivatives will be subject to reliable and verifiable valuation on a current basis and will be able to be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative.

3. The Fund may invest no more than 20 percent of its net assets in transferable securities or money market instruments issued by the same body. The Fund may not invest more than 20 percent of its net assets in deposits made with the same body. In case clearing is not done through an official clearing house as defined in EMIR, the risk exposure to a counterparty of the Fund in an OTC derivative transaction may not exceed 20 percent of its net assets
4. Notwithstanding the individual limits laid down in paragraph 3 above, the Fund shall not combine, where this would lead to investment of more than 30 percent of its net assets in a single body, any of the following:
 - a. investments in transferable securities or money market instruments issued by that body;
 - b. deposits made with that body; or
 - c. unless cleared through an official clearing house as defined in EMIR, exposures arising from OTC derivative transactions undertaken with that body.
5. Notwithstanding paragraph 3 and 4. above, the Fund may invest in accordance with the principle of risk-spreading up to 100 percent of its total assets in different transferable securities and money market instruments issued or guaranteed by a Member State, its local authorities, or by public international bodies (Supranationals).
6. The bonds issued by mortgage credit institutions invested in by the Fund shall have at least the credit rating A (“single A”) or equivalent at Fitch, Standard & Poors or Moody’s, or a corresponding rating at another recognised first class rating institute. If a given bond is rated by all three major rating agencies, Moody’s, Standard & Poor’s and Fitch, the rating that is determined for a given bond is the second lowest rating. If the bond is only rated by one or two of the agencies mentioned above, then the lowest rating will apply credit rating. Bonds, which the Sub-Fund has invested in and subsequently is downgraded to a credit rating category lower than A- may be sold at the discretion of the Investment Manager.
7. The Fund will not invest in corporate bonds unless guaranteed by a Member State, its local authorities, a non-Member State of the EEA or public international bodies of which one or more Member States are members.
8. The Fund may invest up to 10% of total assets in transferable securities and money market instruments not admitted to or dealt on a Recognised Investment Exchange.
9. The Fund will not acquire the units of any undertakings for collective investment in transferrable securities (“UCITS”) or other collective investment undertakings.

Reuse of collateral

If and to the extent the services of one or several prime brokers are used on behalf of the Fund, these prime brokers shall satisfy the relevant requirements in the AIFMD and may be entitled to transfer and reuse the Fund’s assets.

Borrowing

The Fund will from time to time, borrow in EUR (Euro), NOK (Norwegian Kroner), SEK (Swedish Kroner), GBP (British Sterling), USD (United States Dollars), CHF (Swiss Francs) and DKK (Danish Kroner).

Currency Hedging

The Fund’s operating currency will be DKK. However, the Shares in the EUR Sub-Class and the EUR Sub-Class W will be issued in EUR, the Shares in the NOK Sub-Class W will be issued in NOK, the Shares in the SEK Sub-Class and the SEK Sub-Class W will be issued in SEK and the Shares in the

USD Sub-Class will be issued in USD. At least 90 percent of the Net Asset Value of the Shares in the EUR Sub-Class, the EUR Sub-Class W, the NOK Sub-Class W, the SEK Sub-Class, the SEK Sub-Class W and the USD Sub-Class will at all times be currency hedged in EUR, NOK, SEK and USD respectively.

Amendments to Investment Objectives and Restrictions

The Directors are permitted to amend the preceding investment objective, policy and restrictions (including any borrowing and hedging powers) applicable to the Fund provided that no material changes shall be made without providing the Shareholders of the Fund or a Separate Fund (as applicable) with sufficient notice to enable them to redeem their Shares before the amendment takes effect. Shareholders are not required to approve the amendment of the preceding investment objectives, policy and restrictions (including any borrowing and hedging powers) applicable to the Fund although the Directors reserve the right to seek approval if they consider it appropriate to do so. In seeking approval from the Shareholders as aforesaid the Directors may also request Shareholders to approve a general waiver of the aforementioned requirement to provide a dealing days' notice of the proposed amendments to the investment objectives, policy and restrictions (including any borrowing and hedging powers). Shareholders should note that the waiver, if passed, would apply to all Shareholders of the Fund or a Separate Fund (as applicable) regardless of whether or not they voted in favour of the waiver. In any case, such approval(s) would be sought by means of an ordinary resolution of Shareholders (passed by a simple majority) of the Fund or the relevant Separate Fund (as applicable) if the Directors consider it appropriate.

The AIFM

The Company has appointed the AIFM as its alternative investment fund manager in respect of the Fund pursuant to the terms of an alternative investment fund management agreement (the "**AIFM Agreement**"). Full particulars of the AIFM Agreement are described in the Principal Particulars. The AIFM is entitled to receive a management fee and performance fee from the Company on the basis set out in the section entitled "Fees and Expenses" in these Supplemental Scheme Particulars.

Investment Manager

The AIFM has appointed the Investment Manager to be responsible for the provision of portfolio management services to the Company in respect of the assets of the Fund. The Investment Manager is entitled to receive a performance fee from the AIFM on the basis set out in the section entitled "Fees and Expenses" in these Supplemental Scheme Particulars.

Broker

The Company on behalf of the Fund has appointed Danske Bank A/S (also the Investment Manager of the Fund) as a broker (the "**Broker**") to the Fund pursuant to an ISDA Master Agreement, (dated 4 January 2006) (the "**ISDA Agreement**") and a TBMA/ISMA Global Master Repurchase Agreement (dated 29 December 2005) (the "**ISMA Agreement**") (each as amended, restated or novated from time to time and together the "**Service Level Agreements**").

In its capacity as broker to the Fund, and pursuant to the terms of the Service Level Agreements, the Broker may execute purchase and sale orders for the Fund, and clear and settle such orders and orders executed by other brokers. In addition, the Broker may enter into off-exchange contracts with the Fund as principal. The Broker may also provide the Fund with financing lines and short selling facilities and administration services with respect to the foregoing.

The fees of the Broker shall be payable by the Company out of the assets of the Fund. The ISMA Agreement shall continue in force until terminated by either party giving written notice to the other. The ISDA Agreement shall continue in force until terminated by either party giving not less than three months' prior written notice to the other (except where, in limited circumstances, it may be terminated sooner in the case of breach of agreement, default or misrepresentation).

Derogation of the Custodian

Derogations have been granted by the GFSC from the requirements of certain of the Rules in respect of a custodian's usual responsibility to oversee that the Directors properly discharge their duties to ensure that (i) the property of the Fund is invested in accordance with the Fund's objectives and (ii) the Fund is properly managed and administered by the Administrator. Accordingly, responsibility for these two duties under the Rules rests with the Directors of the Company. Furthermore, the Company has obtained a derogation from the definition of "scheme property" under the Rules to provide that, in respect of the Custodian, any assets held with a prime broker or broker shall not be regarded as "scheme property". The Custodian shall as a consequence, only be responsible for the safe custody of the assets of the Fund that are not held by a prime broker or broker.

According to the Service Level Agreements, the Broker may collect collateral in accordance with the terms in the ISDA and ISMA Agreement. Such collateral shall not be held by the Custodian or Sub-Depository. All other assets of the Fund will be held by the Custodian or Sub-Depository.

Conflicts of Interest

The AIFM, the Investment Manager, or their affiliates may provide investment advisory and management services to other clients in addition to the Company. The AIFM, the Investment Manager, and their affiliates will act in a fair and equitable manner in allocating investment opportunities among the Fund, other Cells of the Company, other investment vehicles managed by them and the accounts of their other clients, although situations may arise in which the account activities of the AIFM, the Investment Manager, or other clients may disadvantage the Fund. The AIFM, the Investment Manager, and their affiliates will endeavour to ensure that any conflict which does arise will be resolved fairly

The Directors, the Broker, the Custodian, the Administrator and the Registrar may from time to time act as directors, custodian, registrar, broker, administrator, investment advisor, distributor or dealer in relation to, or be otherwise involved in, other Cells and other funds established by parties other than the Fund which have similar objectives to those of, or invest in similar securities to those held by, the Fund. It is, therefore, possible that any of them or their respective principals, shareholders, members, directors, officers, agents or employees may, in the course of business, have potential conflicts of interest with the Fund. Each will, at all times, have regard in such event to its obligations to the Fund and will endeavour to ensure that such conflicts are resolved fairly. In addition, subject to applicable law, any of the foregoing may deal, as principal or agent, with the Fund, provided that such dealings are carried out as if effected on normal commercial terms negotiated on an arm's length basis.

In respect of the AIFM in the context of its management of conflicts, where organisational arrangements made by the AIFM to identify, prevent, manage and monitor conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to investors' interests will be prevented, the AIFM is obliged to clearly disclose the general nature or sources of the conflicts of interest to the investors before undertaking business on their behalf and develop appropriate policies and procedures

Distribution Policy

It is the intention of the Directors to accumulate all income receipts and capital gains of the Fund for reinvestment and not to make distributions to Shareholders, although the Directors reserve the right to declare or recommend that Shareholders resolve to declare dividends should they consider it appropriate.

SFDR classification

The Fund is categorised as article 8 under SFDR and promotes environmental and/or social characteristics, as well as good governance practices, through screening, exclusions, investment analysis and decision-making as well as active ownership.

The Fund follows Danske Invest's responsible investment policy.

For more information related to:

- The Danske Invest's responsible investment policy see section 3.7 of the Principal Particulars

- the Fund’s environmental and/or social characteristics, see page 24.

See the below table outlining how the responsible investment processes are applied to the Fund:

| | | | | | Investee companies’ impact on sustainability matters | |
|--------------------------------|---------------------------------|--|--|---|--|--------|
| Sound sustainability practices | Sound environmental stewardship | Reduction of activities and conduct harmful to society | Reduction of involvement in non-ethical/controversial activities | Reduction of activities resulting in significant negative impact on the climate | Engagement | Voting |
| | | • | • | • | • | |

For further information about the data sources and methodologies used, go to www.danskehedge.com.

The tables below outline the investment exclusions in place for the Fund based on the responsible investment policy as well as on investor’s ethical and sustainability needs.

If an exclusion is mentioned, companies and/or issuers involved in the exclusion category are excluded from the investment universe of the Fund. If not, companies and/or issuers in scope of this exclusion category may be included depending on the defined investment universe and the portfolio manager’s discretion.

For further information on the investment exclusion definitions, activities, criteria and threshold employed by Danske Bank A/S, go to www.danskehedge.com.

| | | Reduction of activities resulting in significant negative impact on the climate | | | |
|--|--------------|---|-----------|--------------|------|
| Reduction of activities and conduct harmful to society | Fossil fuels | Peat-fired power generation | Tar sands | Thermal coal | SPU* |
| • | | • | • | • | • |

| Reduction of involvement in non-ethical and controversial activities | | | | | |
|--|-----------------------|----------|--------------------|-------------|---------|
| Alcohol | Controversial weapons | Gambling | Military equipment | Pornography | Tobacco |
| | • | | | • | • |

* List of exclusions defined by Norges Bank (called ”Statens Pensjons Utland” – ”SPU” exclusions)

Risk Factors

In addition to the risk factors explained in the Principal Particulars under the section headed “Risk Factors”, investors should be aware of the following risk factors specific to the Fund.

The value of the portfolio of the Fund is calculated on the basis of the market prices/value of the individual bonds and other debt instruments as well as financial derivative instruments and repurchase agreements held by the Fund. This market value is mainly influenced by changes in the spread between interest rates and changes in the steepness of interest rate curves where the Fund has holdings and the Investment Manager’s ability to predict correctly the movements of the relevant assets/instrument in which the Fund has entered in to. Further the market value may be influenced by changes in interest

rates as well as by the general economic and political development in those markets where the Fund is invested in.

The bonds invested in will include bonds issued by credit institutions, companies and governments. Furthermore the Fund will invest in derivatives on the bonds and general interest rate futures as well.

The Fund will therefore be subject to the credit risk of the issuers of the bonds and the counterparty of the derivatives. As the Fund may also invest in debt securities with low credit ratings, the Fund may from time to time be affected with greater price fluctuations than would be the case for a fund only investing in debt securities with high credit ratings.

Extensive use of financial derivative instruments and repurchase agreements is part of the investment policy of the Fund. While the prudent use of financial derivative instruments and repurchase agreements can be beneficial, use of these instruments also involves additional risks that in certain cases can be greater than the risks presented by more traditional investments. Further other risks are associated with the use of financial derivatives transactions, including but not limited to leverage, illiquidity of the markets for derivative instruments, valuation risk arising out of different permitted valuation methods and the inability of the derivatives to correlate perfectly with the underlying securities, rates or indices.

The Fund uses leverage. This may lead to a loss that in certain cases can be greater than the loss without leverage even though the leveraged holdings in many cases are hedge strategies, that aim to hedge away different types of risk not wanted in the portfolio.

The Fund is exposed to volatility risk. If the volatility in the positions change substantially it can lead to loss. This can be amplified by a high leverage obtained via financial derivatives instruments and repurchase agreements.

The Fund is exposed to liquidity risk when a particular investment or position cannot be easily unwound or offset due to insufficient market depth or market disruption. This can affect the ability of the Fund to sell the investment or position in question, and can also have an impact on the value of the Fund. Although the Fund will invest mainly in liquid securities financial derivatives instruments and repurchase agreements where the Fund is entitled to sell its securities or contracts within a reasonable timeframe, there may be exceptional circumstances in which the liquidity of such securities cannot be guaranteed. Absence of liquidity may have a determined impact on the Fund and the value of its investments. This can be amplified by a high leverage.

Further, large transactions in or out of the Fund and/or Sub-Class can create “dilution” of the Fund’s and/or Sub-Class’ assets because the price at which a Shareholder buys or sells Participating Shares in the Fund and/or Sub-Class may not entirely reflect the dealing and other costs that arise when the Investment Manager has to trade in securities to accommodate large cash inflows or outflows. The Directors may apply a swing pricing mechanism in order to address these issues as further detailed below. As dilutions referred to in relation to this Fund relate to subscriptions and redemptions, and therefore inflows and outflows of monies, it is not possible to accurately predict whether dilutions will occur at any future point in time. Consequently, it is impossible to accurately predict how frequently the Fund will need to apply the swing pricing mechanisms and to what extent the mechanisms applied will be sufficient to curb or completely eliminate any adverse dilution effect for existing Shareholders (in case of new subscriptions) or remaining Shareholders (in case of redemptions).

Taking short positions on certain securities may be restricted due to actions taken by regulators. Such restriction vary across different jurisdictions and may change in the short to medium term. These restrictions may influence Investment Manager’s possibility to implement different investment strategies as well as the possibility to control the risk of the open positions. Accordingly, the Investment Manager’s ability to fulfill the investment objective of the Fund may be in some situations constrained.

Investors admitted to the Fund after the initial subscription may dilute the interest of the existing investors in the Fund, unless anti-dilution measures are employed as further detailed in the Principal Particulars.

In addition the trading strategies described under “Investment Objective and Policy” may lead in certain circumstances to late settlement of the trades of the investments of the Fund. This might cause additional interest costs for the Fund.

Brokerage risks related to different counterparties

The Fund may enter into agreements with different counterparties relating to derivative and repurchase transactions. In relation to the Fund’s right to the return of assets equivalent to those of the Fund’s assets, legal and beneficial title to which has been transferred to the counterparties as collateral and which the counterparty may sell, borrow, lend or pledge, charge, rehypothecate, dispose, or otherwise transfer or use for its own purpose, the Fund ranks as one of such counterparty's unsecured creditors and the Fund might not be able to recover such equivalent assets in full, or at all. In addition, the Fund’s cash collateral held with the counterparty may not be segregated from the counterparty’s own cash and could be used by the counterparty in the course of its business and the Fund will therefore rank as an unsecured creditor in relation thereto.

Transactions with OTC derivatives may involve higher risk than investing in derivatives dealt in on a regulated market. The Fund will use a number of counterparties for the repurchase agreements and financial derivative instrument transactions. In case counterparty defaults it may mean a loss for the Fund. Under certain conditions the terms in the Fund’s OTC agreements gives the counterparty the right to terminate the derivative position. This may create a loss for the Fund because with OTC Derivatives there is a risk that a counterparty will not be able to fulfill its obligations.

Brokerage: Counterparty Insolvency

The Fund is at risk of a counterparty entering into an insolvency procedure. During such a procedure (which may last many years) the use by the Fund of assets held by or on behalf of the counterparty in question may be restricted and accordingly (a) the ability of the AIFM and/or the Investment Manager to fulfil the investment objective may be severely constrained, (b) the Fund may be required to suspend the calculation of the Net Asset Value and as a result subscriptions for and redemptions of Participating Shares, and/or (c) the Net Asset Value may be otherwise affected. During such a procedure, the Fund is likely to be an unsecured creditor in relation to certain assets and accordingly the Fund may be unable to recover such assets from the insolvent estate of the Broker in full, or at all.

Potential investors who are in any doubt as to the risks involved in investment in the Fund are recommended to obtain independent financial advice before making an investment. Investment in the Fund should be made only after consulting with independent, qualified sources of investment and tax advice. The Fund is a speculative investment, and is not intended to be a complete investment program. It is designed only for sophisticated investors who are able to bear the risk of an investment in the Fund, including the risk of capital loss. There can be no assurance that the Fund will achieve its investment objective.

SUBSCRIPTION AND REDEMPTION OF SHARES

Subscriptions

Eligible investors may subscribe for Shares in each Sub-Class at the Subscription Price as calculated on a Dealing Day in accordance with the procedure set out below.

Prospective investors should refer to the section headed “Eligible Investors” in the Principal Particulars to establish whether or not they are eligible to invest. Shares will be issued on the first Business Day after the relevant Valuation Day (i.e. on the relevant Dealing Day). The price at which Shares will be issued (other than for the first Dealing Day of a Sub-Class) will be the Subscription Price calculated by reference to the Net Asset Value and in the manner described in the section headed “Calculation of Subscription Price” in the Principal Particulars.

Shares in the DKK Sub-Class W, the EUR Sub-Class W, the NOK Sub-Class W and the SEK Sub-Class W will only be available to regulated Danske Bank group entities subscribing on behalf of certain of their clients in the context of a discretionary management agreement entered into with those clients or subscribing on behalf of certain of their clients in the context of an agreement entered into with those clients that explicitly permits investments in these Shares.

Completed Application Forms must be received by the Sub-Registrar if Shareholders wish to be registered as the legal owner of the Shares or the relevant Distribution Agent for clients of a Distribution Agent where the relevant Distribution Agent will in turn subscribe for Shares in the Fund which it will then hold as nominee for investors at the contact address set out below by fax or post no later than 1:00 p.m. (Central European Time) on the relevant Valuation Day. For more information please refer to the section headed “Subscription and Redemption of Shares” in the Principal Particulars.

Settlement for subscriptions for Shares in the Fund may be made as follows:

Application monies for Shares in the DKK Sub-Class and the DKK Sub-Class W may be paid in Danish Kroner or any other currency acceptable to the Sub-Registrar or relevant Distribution Agent as applicable. Application monies for Shares in the DKK Sub-Class and the DKK Sub-Class W other than in Danish Kroner will be converted into Danish Kroner and all bank charges and other conversion costs will be deducted from the application monies prior to investment in such Shares.

Application monies for Shares in the EUR Sub-Class and the EUR Sub-Class W may be paid in EUR or any other currency acceptable to the Sub-Registrar or relevant Distributor Agent as applicable. Application monies for Shares in the EUR Sub-Class and the EUR Sub-Class W other than in Euro will be converted into EUR and all bank charges and other conversion costs will be deducted from the application monies prior to investment in such Shares.

Application monies for Shares in the SEK Sub-Class and the SEK Sub-Class W may be paid in SEK or any other currency acceptable to the Sub-Registrar or relevant Distributor Agent as applicable. Application monies for Shares in the SEK Sub-Class and the SEK Sub-Class W other than in SEK will be converted into SEK and all bank charges and other conversion costs will be deducted from the application monies prior to investment in such Shares.

Application monies for Shares in the NOK Sub-Class W may be paid in NOK or any other currency acceptable to the Sub-Registrar or relevant Distributor Agent as applicable. Application monies for NOK Sub-Class W other than in NOK will be converted into NOK and all bank charges and other conversion costs will be deducted from the application monies prior to investment in such Shares.

Application monies for Shares in the USD Sub-Class may be paid in USD or any other currency acceptable to the Sub-Registrar or relevant Distributor Agent as applicable. Application monies for Shares in the USD Sub-Class other than in USD will be converted into USD and all bank charges and other conversion costs will be deducted from the application monies prior to investment in such Shares.

Unless the applicant has made arrangements with the Fund to make payment in some other currency or by some other method, payment must be made in Danish Kroner in respect of the DKK Sub-Class and the DKK Sub-Class W, Euro in respect of the EUR Sub-Class and the EUR Sub-Class W, NOK in respect of the NOK Sub-Class W, SEK in respect of the SEK Sub-Class and the SEK Sub-Class W and USD in respect of the USD Sub-Class by bank transfer to:

Name: RBC Investor Services Bank S.A.
Address: 14, Porte de France
L-4360 Esch-sur-Alzette
Grand Duchy of Luxembourg
Ref.: Danske Invest PCC Limited
SWIFT code: FETALULL

Application monies must be received by the Sub-Registrar in cleared funds no later than 1:00 p.m. (Central European Time) on the relevant Valuation Day unless otherwise accepted by the Directors.

The Fund may impose a sales charge of up to 5 percent of the Subscription Price of the Shares which are issued to applicants and an amount equal to any stamp duty and any other governmental taxes and charges payable by the Fund with respect to the issue of such Shares. The sales charge shall be divided between the Fund, the AIFM and the Investment Manager or any sales agents or distributors as the Directors or the AIFM may from time to time agree. The Directors may also apply a swing pricing mechanism as described in the Principal Particulars.

The Subscription Price will be calculated in the manner specified in the Principal Particulars and applications then executed on the first Business Day after the relevant Valuation Day (i.e. the Dealing Day). Shares will be in registered form and Share certificates will not be issued.

A contract note will be sent within seven (7) Business Days after the relevant Valuation Day to successful applicants.

The Directors reserve the right to reject any application for Shares in whole or in part (including if an applicant fails to comply with the client verification and anti-money laundering requirements set out in the section headed “Anti-Money Laundering” in the Principal Particulars). If any application is not accepted in whole or in part, the application monies or (where an application is accepted in part only) the balance thereof will be returned (without interest) in Swiss Franc, Danish Kroner, Euro, Pound Sterling, Norwegian Kroner, Swedish Kroner or US Dollar (as applicable, or may be returned in the currency in which the application monies were received, if different) by bank draft made out in favour of the applicant (or, in the case of joint applicants, the first named) and sent by ordinary post at the risk of the person entitled thereto. Funds may also be returned by bank transfer at the discretion of the Sub-Registrar or relevant Distribution Agent as applicable and at the expense of the applicant.

Minimum Initial Subscription and Subsequent Minimum Holding

The minimum initial subscription and subsequent minimum holding for each applicant for Shares in the DKK Sub-Class, the DKK Sub-Class W, the EUR Sub-Class, the EUR Sub-Class W, the NOK Sub-Class W, the SEK Sub-Class, the SEK Sub-Class W and the USD Sub-Class (including an existing Shareholder) is DKK 10,000, DKK 10,000, EUR 1,000, EUR 1,000, NOK 10,000, SEK 10,000, SEK 10,000 and USD 1,000 respectively.

In each case, the minimum initial subscription amount is the amount after deduction of any sales charge or other costs or fees relating to the subscription.

The Directors of the Company may at any time waive the minimum initial subscription and subsequent holding of Shares by way of resolution.

Shares may be issued in fractions of a Share expressed to four decimal places. Application monies representing smaller fractions will be retained by the Company.

Contact Details of the Sub-Registrar and Global Distributor

Sub-Registrar

Applications for subscription and redemptions of Shares should be made to the Sub-Registrar at the following address:

Name: RBC Investor Services Bank S.A.
Address: 14, Porte de France
L-4360 Esch-sur-Alzette
Grand Duchy of Luxembourg
Fax: +352 24 60 41 04
Tel: +352 26 059 730

Global Distributor

Applications for subscription and redemptions of Shares made by Clients of Danske Bank A/S should be made to Danske Bank A/S at the following address:

Name: Danske Bank A/S
Address: Holmens Kanal 2-12
DK-1092 Copenhagen
Denmark

For clients of a Distribution Agent other than Danske Bank A/S, applications for subscription and redemptions of Shares should be made to the relevant Distribution Agent using the address and contact number provided by such Distribution Agent.

Redemption Notice and Payment of Redemption Proceeds

Shares in the DKK Sub-Class, the DKK Sub-Class W, the EUR Sub-Class, the EUR Sub-Class W, the SEK Sub-Class, the NOK Sub-Class W, the SEK Sub-Class W and the USD Sub-Class may be redeemed on any Dealing Day at the request of the holder of such Shares.

Each redemption request should be sent to the Sub-Registrar or, the relevant Distribution Agent where a Distribution Agent acts as nominee for its clients, at the address shown above in the section headed "Contact Details of the Sub-Registrar and Global Distributor" and should be given in writing and must specify the number or monetary value of Shares to be redeemed and give payment instructions for the redemption proceeds.

In order for a redemption request in relation to Shares to take effect on a particular Dealing Day, the redemption request must be received by the Sub-Registrar or the relevant Distribution Agent not later than 1:00 p.m. (Central European Time) on the relevant Valuation Day (i.e. the Business Day immediately preceding the particular Dealing Day) or such other day as the Directors may in their absolute discretion decide. The Redemption requests received after 1:00 p.m. (Central European Time) on any Valuation Day will be deemed to be received on the next following Valuation Day and will be processed on the Dealing Day immediately following such Valuation Day. Valuation Days are dependent on the banks in each of Denmark, Luxembourg and Guernsey being open for normal business.

Where a redemption request exceeds DKK 50,000,000 in respect of the DKK Sub-Class and the DKK Sub-Class W respectively, EUR 6,500,000 in respect of the EUR Sub-Class and the EUR Sub-Class W, NOK 50,000,000 in respect of the NOK Sub-Class W, SEK 50,000,000 in respect of the SEK Sub-Class

and the SEK Sub-Class W or USD 9,000,000 in respect of the USD Sub-Class (hereinafter "large redemption requests"), the large redemption requests, to take effect on a particular Dealing Day, must be received by the Sub-Registrar or the relevant Distribution Agent not later than 1:00 p.m. (Central European Time) on the Valuation Day occurring 5 Business Days before the relevant Valuation Day or such other day as the Directors may in their absolute discretion decide. Large redemption requests received after 1:00 p.m. (Central European Time) on any Valuation Day will be deemed to be received and processed for the Net Asset Value calculated for the next relevant Valuation Day with the redemption taking effect on the Dealing Day occurring on 6 Business Days after the request is received. Where a redemption request specifies the number of Shares to be redeemed, the monetary value of such Shares will be calculated based on the latest available Net Asset Value and if such monetary value exceeds the limits referred to above, such request will be treated as a large redemption request.

Upon receipt of a valid redemption request, subject to the conditions on redemption set out above and in the section headed "Subscriptions and Redemptions" in the Principal Particulars, the Sub-Registrar will redeem the Shares. For more information please refer to the sections headed "Introduction" and "The AIFM and Distributor" in the Principal Particulars.

A Shareholder redeeming Shares will, except as referred to below, be paid an amount equal to the Redemption Price per Share which is calculated on the relevant Dealing Day by reference to the Net Asset Value and in the manner described in the Principal Particulars under the section headed "Calculation of Redemption Prices".

The Fund may impose a redemption charge of up to 5 percent of the Redemption Price of the Shares, which are redeemed. The redemption charge shall be divided between the Fund, the AIFM and the Investment Manager as the Directors may from time to time agree. The Directors may also apply a swing pricing mechanism as described in the Principal Particulars.

Redemption proceeds will be paid in Danish Kroner in respect of the DKK Sub-Class and the DKK Sub-Class W, Euro in respect of the EUR Sub-Class and the EUR Sub-Class W, NOK in respect of the NOK Sub-Class W, SEK in respect of the SEK Sub-Class and the SEK Sub-Class W, USD in respect of the USD Sub-Class and, except where the redeeming Shareholder gives alternative payment instructions, will be paid by bank transfer at the cost and risk of the redeeming Shareholder to the bank account specified by him. Payment will be made within four (4) Business Days after the relevant Valuation Day or (if later) the day on which the Sub-Registrar receives a redemption request form, duly completed and signed by the Shareholder (or, in the case of joint Shareholders, by each of them). A contract note will be sent to a redeeming investor within seven Business Days after the relevant Valuation Day.

No redemption of part of a holding of Shares in the DKK Sub-Class and the DKK Sub-Class W, the EUR Sub-Class and the EUR Sub-Class W, the NOK Sub-Class W, the SEK Sub-Class and the SEK Sub-Class W and the USD Sub-Class may be made which would result in the Shareholder retaining Shares which have a value of less than DKK 10,000, DKK 10,000, EUR 1,000, EUR 1,000, NOK 10,000, SEK 10,000, SEK 10,000 and USD 1.000 respectively, unless the Directors in their sole discretion determine to permit the redemption.

Compulsory Redemption

The Directors have resolved that they may at their discretion compulsorily redeem at any time the Shares in the Fund of any investor which, as a result of a redemption or transfer of any part of the investor's holding, have a value of less than any minimum required holding in the Fund.

The Directors have further resolved that in the context of a Sub-Class where (i) a discretionary management agreement with an underlying client of Danske Bank group entity is terminated or (ii) a Change of Control of the Danske Bank group entity through which a client holds an interest in Shares occurs, or (iii) if the Danske Bank group entity through which a client holds an interest in Shares, transfers those Shares to an entity not within the Danske Bank group, or (iv) at the discretion of the

AIFM or the Company, the Directors may either authorise Shares of such Shareholder to be exchanged for Shares of another class or series, or compulsorily redeem Shares of the Shareholder in accordance with the Articles.

Availability of Prices

The Subscription Price (exclusive of any sales charge) and the Redemption Price as calculated for each Valuation Day will be available on request from the Global Distributor, the Administrator and the Sub-Administrator

FEES AND EXPENSES

Management Fee

Under the terms of the AIFM Agreement the Company, out of the assets of the corresponding Separate Fund, will pay to the AIFM a maximum management fee of:

- 0.90 percent per annum of the DKK Sub-Class Net Asset Value, DKK Sub-Class W Net Asset Value, EUR Sub-Class Net Asset Value, EUR Sub-Class W Net Asset Value, NOK Sub-Class W Net Asset Value, SEK Sub-Class Net Asset Value, SEK Sub-Class W Net Asset Value and USD Sub-Class Net Asset Value.

The DKK Sub-Class Net Asset Value, the DKK Sub-Class W Net Asset Value, the EUR Sub-Class Net Asset Value, the EUR Sub-Class W Net Asset Value, the SEK Sub-Class Net Asset Value, NOK Sub-Class W Net Asset Value, the SEK Sub-Class W Net Asset Value and the USD Sub-Class Net Asset Value for the purposes of determining the investment management fee shall include all relevant expenses and liabilities paid or accrued. The fees are calculated on each Valuation Day and paid quarterly in arrears.

The AIFM is responsible and liable for payment of any investment management fees due to the Investment Manager in accordance with the investment agreement between the AIFM and Investment Manager and the Company has no responsibility for such fees.

Performance Fee

Under the terms of the AIFM Agreement the Company, out of the assets of the corresponding Separate Fund, will also pay to the AIFM a performance fee from the Fund calculated. Any such performance fees will be calculated for the DKK Sub-Class, the DKK Sub-Class W, the EUR Sub-Class, the EUR Sub-Class W, the NOK Sub-Class W, the SEK Sub-Class, the SEK Sub-Class W and the USD Sub-Class.

If a performance fee is payable in relation to any relevant Sub-Class, the performance fee shall be, for the DKK Sub-Class, the DKK Sub-Class W, the EUR Sub-Class, the EUR Sub-Class W, the NOK Sub-Class W, the SEK Sub-Class, the SEK Sub-Class W and the USD Sub-Class an amount equal to 20 percent of the outperformance (as defined below).

General description

A performance fee is charged only when a Sub-Class of the Fund outperforms its Reference Benchmark, a measure of relevant market performance, as shown below:

| Sub-Class currency | Reference Benchmark | Bloomberg ticker | BR administrator ESMA registered |
|---------------------------|--|-------------------------|---|
| DKK | Tomorrow/Next Interest Rate | DETNT/N | Yes |
| EUR | Euro short-term rate | ESTRON | N/A |
| NOK | Norwegian Overnight Weighted Average Rate | NOWA | N/A |
| SEK | Stockholm Interbank Offered Rate Tomorrow/Next | STIB1D | No |
| USD | US Federal Funds effective rate | FEDLO1 | No |

The Reference Benchmark is used as the hurdle rate and the main reference indicator remains the high watermark.

The performance fee calculation method is designed so that no fee will be paid merely to earn back performance that was previously lost. As with most types of performance fees, however, it is possible that an investor could end up paying a performance fee even though the Fund's actual performance is negative. This would occur, for example, if an investor held Shares during a period when the Fund's value declined, but less than the Sub-Class' Reference Benchmark calculation.

The performance reference period is equal to the whole life of the Fund. The performance fee is calculated and accrued daily. The crystallisation date, being the date when the performance fee becomes payable, is set on the last valuation date of each calendar year. A performance fee also crystallises when any Fund or Sub-Class is merged, liquidated, or redeemed.

If, on the crystallisation date, the Fund has outperformed the Reference Benchmark calculation and there is a positive accrual of performance fee, it will be paid to the AIFM. On the contrary, if, on the crystallisation date, the Fund has underperformed the Reference Benchmark calculation, no performance fee is accrued and no performance fee is payable, and the calculation period is extended to the next calendar year. In this way, compensation of negative performances is ensured.

The first calculation period shall not be less than 12 months. If a Sub-Class that carries a performance fee is launched, its first calculation period will thus be from the launch date until the end of the following calendar year. The same is true for any existing Sub-Class to which a performance fee is added.

How the fee is calculated

At the beginning of the first business day of a calculation period, and as soon as a performance fee is crystallised at the end of the calculation period, the accrued fee is zero and the respective values of the relevant NAV and the Reference Benchmark calculation are defined as the zero point for the period's performance fee calculations.

On every day that is a business day for the Fund, the performance of the applicable Reference Benchmark calculation is subtracted from the Sub-Class performance. A positive result indicates outperformance, a negative number underperformance.

The results from these calculations accrue over the calculation period. When the accruals result in net outperformance (calculated net of all costs) for the period to date, they are factored into NAV. When the accruals result in net underperformance for the period to date, no performance fee is factored into NAV, but the accrual calculations continue, meaning that no performance fee can be earned during that calculation period until the accrued underperformance is overcome.

The performance fee amount per Share is the performance fee percentage stated above multiplied by the amount of outperformance.

The performance fee is payable only if the performance of the Sub-Class exceeds the NAV previously attained when a performance fee was crystallised at the end of the calculation period, or if it exceeds the NAV at inception, if no performance fee has been paid.

This above-mentioned NAV, referred as high watermark (the NAV previously attained when a performance fee was crystallised at the end of the calculation period), is adjusted for the movements in the respective Reference Benchmark calculation and takes into account the subscriptions, redemptions or distributions effects. The calculation method is designed to account for the actual investment performance of the Fund and not for NAV increases resulting from new subscriptions. Furthermore, swing pricing or other adjustments intended to mitigate the effects of transaction volumes or costs are not counted in the performance fee calculation.

In cases where the Reference Benchmark calculation is negative, its value is defined as zero for the purposes of the calculation of the performance fee.

Because different Sub-Classes of the Fund may have different NAVs, the actual performance fees paid may vary by Sub-Class.

Example

See below a simplified example showing how the outperformance would be calculated based on the NAV per Sub-Class evolution:

| Year | Net perf. (end of year) | Accumu. perf. since last perf. fees | High water-mark | Reference Benchmark | Accumu. Reference Benchmark since last perf. fees | Perf. fee rate | Perf. fee due | NAV after perf. fees (end of year) |
|------|-------------------------|-------------------------------------|-----------------|---------------------|---|----------------|---------------|------------------------------------|
| 1 | 3.00% | 3.00% | 100.00 | 4.00% | 4.00% | 20% | 0.00% | 103.00 |
| 2 | 3.88% | 7.00% | 100.00 | 3.00% | 7.12% | 20% | 0.00% | 107.00 |
| 3 | 1.87% | 9.00% | 100.00 | 0.00% | 7.12% | 20% | 0.38% | 108.62 |
| 4 | -1.50% | -1.50% | 108.62 | 1.00% | 1.00% | 20% | 0.00% | 107.00 |
| 5 | 6.54% | 4.95% | 108.62 | 2.50% | 3.53% | 20% | 0.28% | 113.69 |

In the above example, in year 1, the NAV shows a 3.00% increase, less than the 4.00% increase in the value of the Reference Benchmark. As there is no outperformance, no performance fee is due.

In year 2, the NAV shows a 3.88% increase, more than the 3.00% increase in the value of the Reference Benchmark. This is an outperformance for the year, but the accumulated NAV performance remains lower than the value of the accumulated Reference Benchmark (7.00% vs 7.12%). Therefore, no performance fee is due.

In year 3, the NAV shows a 1.87% increase, when the value of the Reference Benchmark shows no increase (0.00%). This results in an outperformance for the year and on an accumulated basis (9.00% vs 7.12%) A performance fee of 0.38% (20% x (9.00% - 7.12%)) is due and payable at year's end.

In year 4, the Fund has a negative performance of -1.50%, when the value of the Reference Benchmark increases by 1.00%. Therefore, no performance fee is due.

In year 5, the NAV increases by 6.54%, more than the increase in the value of the Reference Benchmark, showing a 2.50% increase. There is an outperformance for the year and on an accumulated basis (4.95% vs 3.53%) since when performance fee was paid last time, in year 3. A performance fee of 0.28% (20% x (4.95% - 3.53%)) is due and payable at year's end.

Operating and Administrative Expenses

Under the terms of the AIFM Agreement, the Company, out of the assets of the corresponding Separate Fund, will pay to the AIFM Operating and Administrative Expenses of:

- 0.20 percent per annum of the Net Asset Value of each Sub-Class of Shares.

The Net Asset Value for the purposes of determining the Operating and Administrative Expenses will include all relevant expenses and liabilities paid or accrued. The fees are calculated on each Valuation Day and paid quarterly in arrears.

Out of the fee, which the AIFM receives for Operating and Administrative Expenses, it is responsible and liable for paying all Operating and Administrative Expenses as defined in the section "Fees and Expenses" in the Scheme Particulars. The Operating and Administrative Expense do not include costs, fees and charges for which the Company may be directly responsible and which will be paid by the Company as described in the Scheme Particulars.

General Expenses

The fees and expenses of any listing of Shares shall be charged to the relevant Separate Fund of the corresponding listed Sub-Class.

To the extent that any of the other operating costs set out in the section headed "Fees and Expenses" in the Principal Particulars are attributable to the Fund, they will be borne by the Fund. To the extent that they are not directly attributable to the Fund or any other particular Cell, they will be apportioned between all Cells (including the Fund or any Separate Fund) pro rata to their respective Net Asset Values.

Danske Invest Hedge Fixed Income Relative Value Fund

Legal entity identifier: 549300748ZRRM2EH3N87

Fund's environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective** - ____%

In economic activities that qualify as environmentally sustainable under the EU Taxonomy

In economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It promotes **Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ____% of sustainable investments

With an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

With an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

With a social objective

It will make a minimum of **sustainable investments with a social objective** ____%

It promotes E/S characteristics, but **will not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

What environmental and/or social characteristics are promoted by this financial product?

The Fund has the following environmental and/or social characteristics:

1. The Fund invests partially in **sustainability-labelled bonds**.
2. The Fund promotes environmental safeguards through the exclusion of certain **activities deemed to have significant negative climate impact**.
3. The Fund promotes adherence to UN Global Compact, principles, OECD Guidelines for Multinational Enterprises, UN Guiding Principles on Business and Human Rights and ILO conventions and other relevant social safeguards through the exclusion of certain **activities and conducts deemed harmful to society**.
4. The Fund promotes certain ethical and social safeguards through the exclusion of certain activities deemed to be **non-ethical and/or controversial**.
5. The Fund seeks to influence **issuers' impact on sustainability matters** through engagement on material sustainability topics.

The Fund does not apply a benchmark for the attainment of its environmental and/or social characteristics.

What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

The attainment of the environmental and/or social characteristics of the Fund is measured by:

1. The number of **sustainability-labelled bonds** in the portfolio.
2. The share of investments in the fund with **activities and conduct deemed harmful to society** as determined through enhanced internal screening and the number of investments excluded on basis of this screening.
3. The share of investments in the fund with **activities deemed to have significant negative climate impacts** as determined through exclusions for thermal coal (5% revenue, unless the company has a documented and credible transitional plan), tar sands (5% revenue), peat fired power generation (5% revenue) and the number of investments excluded as a result of these exclusions.
4. The share of investments with **non-ethical or controversial activities** as determined through exclusions for controversial weapons (0% revenue) and tobacco (5% revenue) and the number of investments excluded as a result of these exclusions.
5. The number of **engagement activities** applied for issuers in the fund.

What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

N/A

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Does this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- Yes
- No

No, the Fund does not consider principal adverse impacts on sustainability factors of its investments due to the nature of the Fund and its inability to report on principal adverse impacts.

What investment strategy does this financial product follow?

The Fund's investment strategy is further detailed in the Supplemental Scheme Particulars of the Fund.

The investment strategy applies exclusions. Further the Fund invests a portion of its investments in sustainability-labelled bonds. The fund engages part of its investment strategy with issuers on material sustainability topics.

The promoted environmental and/or social characteristics as well as issuers' good governance practices are integrated in the investment strategy on a continuous basis through a commitment to systematically identify and address sustainability factors embedded in the investment and/or investment selection process. By this, the environmental and/or social characteristics as well as issuers' good governance practices may influence a decision to either buy or increase weighting, hold or maintain weighting, sell or decrease weighting of an investment, in order to attain the fund's characteristics.

The extent to which the environmental and/or social Fund's characteristics are attained through the investment strategy is monitored on a regular basis and is reported in the Fund's annual report.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

"Sustainability-labelled bonds" the Fund invests in sustainability-labelled bonds.

For the exclusion criteria relating to reduction of **"activities or conduct harmful to society"**, **"non-ethical and controversial activities"** and **"activities with significant negative climate impact"** the investment strategy applies the binding element of not investing into issuers on the Fund's exclusion lists.

Fiduciary duties owed by the Fund to its investors may in extraordinary circumstances, including in a low market liquidity environment, prevent the Fund from divesting an excluded issuer. Any such excluded holding of the Fund will be communicated through the Fund's periodic report and publicly available exclusion lists.

"Issuers' impact on sustainability matters" the Fund commits to engage on material sustainability topics with issuers.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

The Fund has exclusions in place with the rate of reduction impacted by market value fluctuations and other factors. Accordingly, the Fund does not commit to a minimum rate of reduction of the investments considered prior to the investment strategy.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

Asset allocation describes the share of investments in specific assets.

● **What is the policy to assess good governance practices of the investee companies?**

The Responsible Investment Policy and Active Ownership Policy of Danske Invest Management A/S provide the basis for assessing investee companies good governance practices. According to this framework, issuers are excluded pursuant to the enhanced sustainability standards screening if issuers’ business conduct, management and governance do not meet the good governance test applied in the screening. The good governance test excludes issuers that are not aligned with the guidance as set out in the UN Global Compact Principles, OECD Guidelines for Multinational Enterprises, and ILO conventions. The test also incorporates traditional corporate governance criterion, as set out in the ICGN Global Governance Principles.

For the management of the fund’s investments, the fund further seeks to be an active owner and to influence issuers directly through dialogue, voting and collaboration with peers, like-minded investors and stakeholders on matters pertaining to good governance. The Voting Guidelines applied for the fund in this respect outlines expectations to good governance as a default position, but investment teams are allowed to deviate based on case-by-case analyses. Voting must always be carried out to the benefit of investors to avoid any conflict of interest. When voting, investment teams have access to detailed governance reports for the specific issuer to help inform their voting decision.

What is the asset allocation planned for this financial product?

The fund promotes environmental and/or social characteristics through the pass or fail criteria for its exclusions, inclusions and sustainable investments and through its active ownership activities. The expected minimum proportion of investments meeting the pass or fail criteria of the fund’s environmental and/or social characteristics is 50%.

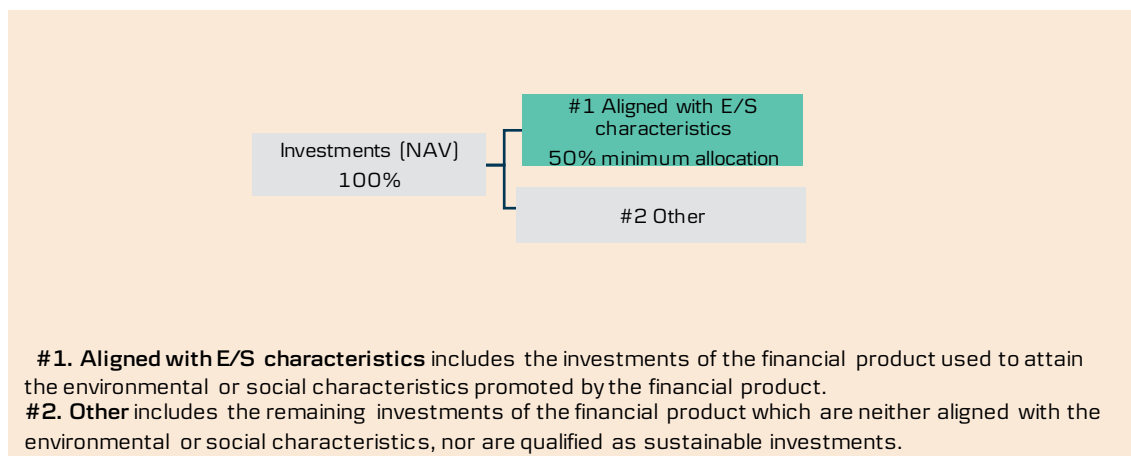

For the Other bucket, the fund can thus not guarantee that the investments have been screened for activities or conduct harmful to society, non-ethical and controversial activities and/or activities with significant negative climate impact, are sustainability-labelled bonds and/or are subject to active ownership activities.

The Fund does not have a minimum allocation to sustainable investments.

The minimum proportion of investments aligned with environmental and/or social characteristics is to be seen as the average minimum allocation to investments aligned with environmental and/or social characteristics within the annual reference period as calculated against the market value of the sum of all assets held by the Fund.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund does not use derivatives for the attainment of environmental and social characteristics promoted by the Fund.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not have a minimum commitment to make sustainable investments. Therefore the minimum extent to which the Fund invests in sustainable investments with an environmental objective aligned with the EU Taxonomy is 0%.

The actual share of the Fund's Taxonomy-aligned investments, if any, shall be reported in the Fund's annual report.

Taxonomy-aligned investments are calculated on basis of the market value of the share of environmentally sustainable economic activities relative to the total market value of the fund's investments. The Taxonomy-alignment calculation applies turnover as key indicator both in respect of financial and non- financial issuers.

The compliance of Taxonomy-aligned investments with the criteria under Article 3 of the EU Taxonomy will not be subject to assurance by auditors or any third party.

For assessing Taxonomy-alignment the fund shall collect data on the issuers through its data vendor ISS ESG, with the option to rely on assumption (proxies) in case of extraordinary circumstances where issuers are not reporting and/or publicly disclosing taxonomy alignment.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹**

- Yes
 In fossil gas In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

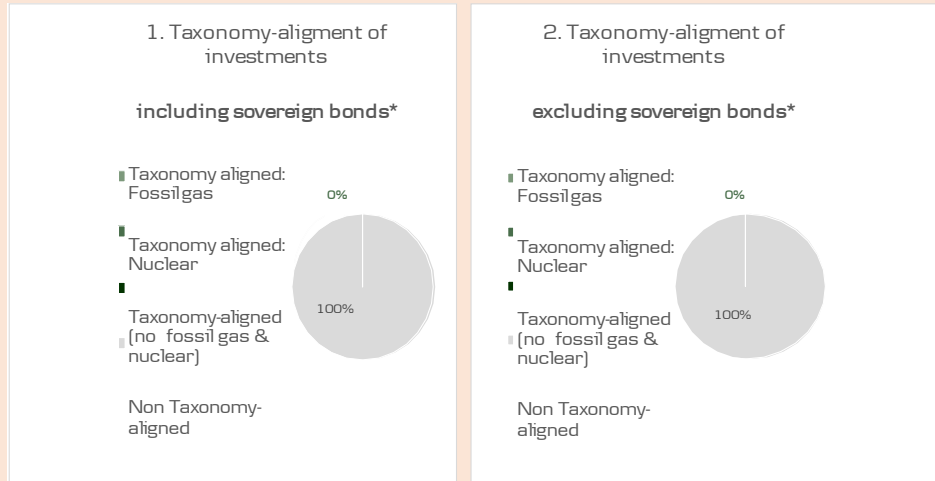

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where contribute to limiting climate change ("climate change mitigation) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What is the minimum share of investments in transitional and enabling activities?**

The Fund does not have a minimum commitment of Taxonomy-aligned investments. Therefore, the minimum share of the Fund's investments in transitional and enabling activities is 0%.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

N/A.

What is the minimum share of socially sustainable investments?

N/A.

What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?

The Fund's underlying assets that do not contribute to the attainment of its environmental or social characteristics are categorised in the "Other" investment bucket. Such bucket may include cash held as ancillary liquidity and derivatives used for hedging or risk management purposes. Information on the Fund's usage of derivatives is outlined in the Supplemental Scheme Particulars of the Fund.

Other investments can also be made in instances for which there is insufficient ESG data on an issuer to determine, whether such investment is promoting the Fund's environmental and social characteristics.

Due to the nature of these asset classes, the Fund does minimum environmental and social safeguards for Other investments.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

N/A.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
